

**THE****ROAM****TRIAL****NEWSLETTER**

Issue No. 4 (May 2017)

*The future of cancer therapy*

Come in We're  
**OPEN**

**7 PATIENTS!**

The ROAM trial has 7 patients!  
Congratulations to Institut Jules  
Bordet (Belgium) for recruiting  
our first non-UK patient!

**ROAM-ing**

We now have 10 UK sites, 3 Belgian sites and 1 Austrian open to recruitment and actively screening patients!

Overseen by EORTC, the submission to French ethics committee will be made this month. Spanish sites have now received their initiation package, and an explanation of the process for site activation. The activation of all other identified sites is ongoing - be ready!

The TROG team in Australia have approval for 8 sites and are moving ever closer towards opening ROAM. We are looking forward to welcoming our new sites!

**ROAM Information Study**

We now have 14 patients consented to the ROAM Information Study - six who decided to participate in the ROAM trial, and eight who did not.

**Information Study 'Top Tip'**

Carefully consider when to approach patients about ROAM; patients suggest it would be optimal to be introduced to the trial prior to pathology results, or to be provided with opportunity to process results before being approached about ROAM.

**Who is next?**

The race is on between Southampton and Dublin to become the 11<sup>th</sup> UK site open for ROAM!

**Any queries?**
