

THE

ROAM TRIAL

Issue No. 7 (Mar 2018)

*The future of cancer therapy*

NEWSLETTER

28 PATIENTS!

The ROAM trial has 28 patients!
A big thank you to all of our sites that have recruited so far - please continue to screen patients and return your logs!

ROAM-ing

Open sites (CTRC* / EORTC^E / TROG^T):

UK & Ireland* = 17 | Belgium^E = 4 | France^E = 3 |
Hamilton (New Zealand)^T = 1 | New South Wales^T = 2 |
Queensland^T = 1 | Spain^E = 3 | Switzerland^E = 2 | Victoria^T = 1

Overseen by EORTC, the submission to the Netherlands ethics committees will occur soon. The activation of all other identified sites is ongoing - be ready!

The TROG team in Australia have opened 5 of their 12 sites. We are looking forward to recruiting our first patient!

ROAM Information Study

We now have 26 patients consented to the ROAM Information Study - **thank you** and please keep up the good work recording consultations and obtaining written consent for them straight after!

Feedback on our recent ROAM workshop:

"I found it very helpful... it was useful to hear what other people were doing and saying [in ROAM consultations] and it either reaffirms that what you're doing is right or it gives you other ideas" (Consultant Oncologist)

Hints and Tips:

We have found that standard care varies across ROAM sites in the UK, with some sites treating patients with radiotherapy and others offering active monitoring. Explaining to patients that sites currently vary in this way will help to highlight uncertainty and emphasise the rationale for ROAM.

ROAM Webinar

We are pleased to invite you to attend a ROAM Webinar!

No need to register – just access the URL below.

When: Thursday 26th April 2018 14:00 - 15:00

To join the meeting: <https://connect.liv.ac.uk/roam250418/>

Any queries?

UK ROAM team: roam@liverpool.ac.uk
