

THE

ROAM

TRIAL

NEWSLETTER

16 PATIENTS!

The ROAM trial has 16 patients! A big congratulations to the team King's College for recruiting their first 2 patients less than 2 months after opening!

ROAM-ing

We now have 13 UK sites, 4 Belgian sites, 1 Austrian site and 2 Spanish sites open to recruitment and actively screening patients!

Overseen by EORTC, the submission to German, Italian and Swiss ethics committees have been performed this month. The activation of all other identified sites is ongoing - be ready!

The TROG team in Australia are planning to open the first of their 11 sites by the end of November. We are looking forward to welcoming our new sites!

NEW ROAM Workshop - How to Maximise Recruitment!

After the success of our last workshop, we will be holding another interactive workshop utilising bespoke feedback from the ROAM Information Study to optimise recruitment. We'd like to invite all oncologists, surgeons and nurses/research radiographers who were unable to attend the June workshop and who are currently, or will be involved in, recruitment consultations.

You are invited!

What: ROAM Workshop - How to Maximise Recruitment

When: Monday 27th November 2017

Where: University of Liverpool in London, 33 Finsbury Square

Please respond to your email invitation to confirm attendance by **31st October**.

Amendment reminder

UK sites, please remember that substantial amendments should not be implemented at your site until you have definite confirmation from Sponsor. This will come in the form of an email from the Trial Coordinator titled **[GO LIVE]**.

Please email the Trial Coordinator if you wish to highlight any differences at your site.

Any queries?
